  - (a) the State; and
  - (b) a landholder and the landholder's successors in title.
- (5) Without limiting subsection (4), the conservation agreement may contain terms—
  - (a) requiring the State to provide financial or other assistance; or
  - (b) requiring the State to provide technical advice; or
  - (c) requiring the State to carry out specified activities; or
  - (d) allowing a landholder to carry out specified activities; or
  - (e) prohibiting a specified use of land in the nature refuge; or
  - (f) restricting the use or management of land in the nature refuge; or
  - (g) requiring a landholder to refrain from, or not to permit, specified activities; or
  - (h) requiring a landholder to carry out specified activities; or

- (i) requiring a landholder to permit or restrict access to the nature refuge by specified persons; or
- (j) specifying the way in which amounts provided to a landholder under the agreement are to be applied by the landholder; or
- (k) requiring a landholder to repay amounts paid under the agreement if the landholder contravenes the agreement or the agreement is terminated under section 47(2); or
- (l) providing for any other matter relating to the conservation of the nature refuge, including the implementation of any management plan for the nature refuge.

#### **46 Declaration of nature refuges**

- (1) A regulation may declare a specified area of State land, or the area the subject of a conservation agreement, as a nature refuge.
- (2) The regulation must specify—
  - (a) the declared management intent for the nature refuge; and
  - (b) the duration of the declaration, which must, if the area is the subject of a conservation agreement, be the duration of the agreement.
- (3) For subsection (2)(b), a reference in the regulation to the duration of the conservation agreement for the area is, if the agreement is terminated and replaced by another agreement under section 48, a reference to the duration of the other agreement.
- (4) In subsection (1)—  
*State land* includes a reserve under the *Land Act 1994*.

## **47 Duration and termination of conservation agreements**

- (1) A conservation agreement has effect until it expires under its terms unless—
  - (a) it is terminated under subsection (2) or by another agreement under section 48; or
  - (b) the declaration of the nature refuge or coordinated conservation area to which it relates is revoked.
- (2) Subject to section 48, a conservation agreement may be terminated only if—
  - (a) in the case of a nature refuge—
    - (i) the landholder who entered into the agreement requests its termination under the terms of the agreement; and
    - (ii) the Minister is of the opinion that the nature refuge to which the agreement relates is no longer needed for, or is no longer capable of being used to achieve, the declared management intent for the nature refuge; or
  - (b) in the case of a coordinated conservation area—the landholder requests its termination under the terms of the agreement.

## **48 Variation or replacement of conservation agreements**

- (1) The State and the landholders bound by a conservation agreement for a nature refuge or coordinated conservation area (the *earlier agreement*) may enter into another conservation agreement for the nature refuge or coordinated conservation area (the *later agreement*) that varies, or terminates and replaces, the earlier agreement.
- (2) The earlier agreement may be varied, for example—
  - (a) in the case of a nature refuge—by removing, at the request of the landholder who entered into the agreement, a part of the nature refuge that, in the Minister's opinion, is no longer needed for, or capable

of being used to achieve, the declared management intent for the nature refuge; and

- (b) in the case of a coordinated conservation area—by removing a part of the coordinated conservation area at the request of one of the landholders.

- (3) Section 45(2) to (5) applies to the later agreement.

- (3A) For a later agreement for a coordinated conservation area, section 45(2) to (5) applies to the later agreement as if a reference to the nature refuge were a reference to the coordinated conservation area.

- (4) However, section 45(2) does not apply in relation to a person whose rights will only be affected by the later agreement in the same way as by the earlier agreement.

## **49 Compulsory declaration of nature refuge**

- (1) If—

- (a) the Minister and landholders concerned are unable to agree on—
  - (i) a proposal to declare a nature refuge; or
  - (ii) the terms of a conservation agreement for the area concerned; and
- (b) the Minister is of the opinion that the area is, or includes—
  - (i) an area of major interest; or
  - (ii) a critical habitat;

and should be declared a nature refuge;

the Minister may give written notice to the landholders, and persons having an interest in the landholders' land, advising that a recommendation may be made to the Governor in Council that the area be compulsorily declared as a nature refuge.

- (2) The notice must specify—

- (a) the proposed management intent for the area; and
  - (b) the reasons why the Minister has reached the opinion; and
  - (c) a day by which objections relating to the recommendation must be received by the Minister.
- (3) After consideration of any objections properly received by the Minister, the Governor in Council may, by regulation, declare the area, or part of the area, as a nature refuge.
- (4) The regulation must—
  - (a) describe the area for which the declaration is made; and
  - (b) specify the declared management intent for the area; and
  - (c) specify the covenant applying to the declaration; and
  - (d) specify such other particulars as are prescribed.

## **50 Revocation of nature refuge or coordinated conservation area**

The Governor in Council may, by regulation, revoke the declaration of a nature refuge or coordinated conservation area in whole or part.

## **50A Chief executive to lodge with or notify particular matters to chief executive (lands)**

- (1) This section applies if—
  - (a) a conservation agreement is entered into, varied or replaced under this division for relevant land; or
  - (b) a regulation is made under section 49(3).
- (2) The chief executive must lodge for registration with the chief executive (lands)—
  - (a) the agreement; or

- 
- (b) a document complying with any requirements of the chief executive (lands) that evidences the matter the subject of the regulation.
  - (3) The agreement or document must be lodged as soon as practicable after the agreement or covenant is made.
  - (4) Also, as soon as practicable after the following actions are taken under this division, the chief executive must notify the chief executive (lands) of the action—
    - (a) the declaration of a protected area under section 46;
    - (b) the termination or revocation of a conservation agreement under section 47;
    - (c) the compulsory declaration of a nature refuge under section 49;
    - (d) the revocation of a protected area.
  - (5) The chief executive (lands) must record the action in the appropriate register under the *Land Act 1994*.
  - (6) In this section—

***relevant land*** means land registered in the land registry under the *Land Act 1994*.

## 51 Conservation agreements and covenants binding

- (1) A conservation agreement that is recorded by the registrar under section 134 in relation to land is binding on—
  - (a) the successors in title to the landholder who entered into the agreement; and
  - (b) persons who have an interest in the land.
- (2) A conservation agreement (other than an agreement mentioned in subsection (1)) is binding on—
  - (a) if land in the area to which the agreement applies is subject to a lease, mining interest, geothermal tenure or GHG authority—the lessee, interest holder or authority holder; and

- (b) if land in the area to which the agreement applies is subject to an encumbrance—the person entitled to the benefit of the encumbrance.
- (3) A conservation covenant is binding on—
  - (a) the landholder and the landholder’s successors in title; and

  - (a) a conservation agreement has been entered into under section 45 for private land; or
  - (b) private land has been declared under section 46 or 49 as, or as part of, a nature refuge or coordinated conservation area.

## **Division 5 Cultural and natural resources**

### **61 Property in cultural and natural resources**

- (1) All cultural and natural resources of a national park (scientific), national park, conservation park or resources reserve are the property of the State.
- (2) However, if land in a protected area mentioned in subsection (1) was included in a forest reserve immediately before the dedication of the protected area, subsection (1) does not extinguish or affect native title or native title rights and interests in relation to the land.
- (3) Also, subsection (1) has effect subject to—

- (a) the *Aboriginal Cultural Heritage Act 2003* to the extent it provides for the ownership of Aboriginal cultural heritage other than by the State; and
- (b) the *Torres Strait Islander Cultural Heritage Act 2003* to the extent it provides for the ownership of Torres Strait Islander cultural heritage other than by the State.

  - (d) a licence, permit or other authority issued or given under a regulation; or
  - (e) if the area is a conservation park, resources reserve, nature refuge or a coordinated conservation area—an exemption under a regulation.

Maximum penalty—3000 penalty units or 2 years imprisonment.

- (2) It is a defence to a charge of taking or interfering with a cultural or natural resource in contravention of subsection (1) to prove that—
  - (a) the taking or interference happened in the course of a lawful activity that was not directed towards the taking or interference; and
  - (b) the taking or interference could not have been reasonably avoided.
- (3) Subsection (2) does not allow a person to use or keep the resource.
- (4) Despite subsection (1) and section 15, but subject to the conditions prescribed under a regulation, a person may take—
  - (a) a fish in a prescribed place; or
  - (b) an invertebrate animal in a prescribed place for use as bait to take fish under paragraph (a); or

*landholder* includes a person having an interest in land.

### 64        **Naming of protected areas**

The Governor in Council may, by regulation, assign a name to, or alter the name of, a protected area or aggregation of protected areas.

### 65        **Effect of change in class of protected area**

- (1) If a protected area, or part of a protected area, is dedicated or declared under this Act to be a protected area of a different class, the later dedication or declaration revokes the earlier dedication or declaration of the area or the part of the area to which the dedication or declaration relates.
- (2) To allay any doubt—
  - (a) subsection (1) applies subject to sections 32 and 33; and
  - (b) subsection (1) does not apply to the declaration of a protected area that includes another class of protected area.

### 66        **Offset condition for protected area authority**

- (1) A condition of a protected area authority may require or otherwise relate to an environmental offset (an *offset condition*).

*Note—*

The *Environmental Offsets Act 2014*, part 6, states further conditions that apply to a protected area authority and those further conditions are called deemed conditions. A breach of a deemed condition may be dealt with under this Act.

- (2) An offset condition may require an environmental offset to be undertaken on land to which a protected area authority applies or on other land in the State.
- (3) If an applicant for a protected area authority has entered into an agreement about an environmental offset, an offset condition may require the applicant to comply with the agreement.
- (4) An agreement entered into under subsection (3) is not an environmental offset agreement under the *Environmental Offsets Act 2014*.
- (5) In this section—  
***environmental offset*** see the *Environmental Offsets Act 2014*, schedule 2.

***protected area authority*** means a lease, agreement, licence, permit or other authority under this Act (including under a regulation) over, or in relation to, land in a protected area.

## **66A Conditions of protected area authority**

- (1) This section applies if, on or after the commencement of this section, a protected area authority becomes, under this Act, subject to an offset condition.
- (2) To the extent the offset condition is inconsistent with a deemed condition, the deemed condition prevails.

*Note—*

See the *Environmental Offsets Act 2014*, section 5(3). Under that provision, particular imposed conditions prevail over deemed conditions.

- (3) In this section—  
***deemed condition*** see the *Environmental Offsets Act 2014*, schedule 2.  
***offset condition*** see section 66(1).  
***protected area authority*** see section 66(5).

**67 Compensation when nature refuge declared**

- (1) This section applies if a nature refuge is declared under section 49.
- (2) If a landholder's interest in land is injuriously affected by a restriction or prohibition imposed under the declaration on the landholder's existing use of the land, the landholder is entitled to be paid by the State the reasonable compensation because of the restriction or prohibition that is agreed between the State and the landholder or, failing agreement, decided by the Land Court.
- (3) The landholder's interest in the land is not injuriously affected if the restriction or prohibition under the declaration is the same, or to the same effect, as a provision of another law applying to the land immediately before the commencement of the declaration.
- (4) Compensation is not payable if compensation has already been paid for—
  - (a) the restriction or prohibition; or
  - (b) a restriction or prohibition to the same effect.
- (5) A claim for compensation must—
  - (a) be made in a form approved by the chief executive; and
  - (b) be made to the chief executive within 6 months after the declaration of the nature refuge, or the longer period the chief executive or Land Court in special circumstances allows.
- (6) In making a determination, the Land Court must have regard to the following matters—
  - (a) the capacity of the land to sustain the existing use;
  - (b) any change in the value of the land because of the declaration;
  - (c) any change in the profitability of the land because of the declaration.

- (7) Subsection (6) does not limit the matters to which the Land Court may have regard in making a determination.
- (8) Subsection (2) does not apply to land if—
  - (a) when the nature refuge is declared, the area the subject of the declaration is identified as, or including, a critical habitat or an area of major interest in—
    - (i) a regulation (the *first regulation*); or
    - (ii) a conservation plan; and
  - (b) the regulation making the declaration declares that the first regulation or conservation plan continues to apply to the area after the declaration; and
  - (c) the landholder receives, or is entitled to receive, compensation under section 137A in relation to the land because of the making of the first regulation or approval of the conservation plan.
- (9) In this section—

*existing use* of land includes a lawful use made of the land immediately before the restriction or prohibition imposed under the declaration or regulation mentioned in subsection (1) started applying to the land.

## **68 No compensation on termination of conservation agreements or revocation of protected areas**

If—

- (a) a conservation agreement is terminated under this Act; or
- (b) a declaration of a protected area is revoked, in whole or part;

the landholders concerned are not entitled to compensation because of the termination or revocation.

---

**69 Preservation of landholders' interests**

- (1) The interests of a landholder of land forming part of a protected area are not affected by—
  - (a) the dedication or declaration of the protected area; or

- (2) Subsection (1) does not apply to the extent of—
  - (a) any binding conservation agreement, or conservation covenant, in relation to the land; or
  - (b) a regulation giving effect to a management plan for the protected area.

**70 Unlawful use of certain words**

- (1) A person must not use words about an area that is not a protected area in a way that is likely to cause someone else reasonably to believe the area is a protected area.

Maximum penalty—50 penalty units.

- (2) A person must not use words about a protected area in a way that is likely to cause someone else reasonably to believe the area is a protected area of a different class.

Maximum penalty—50 penalty units.

- (3) However, subsections (1) and (2) do not stop a person using the words 'national park' or 'conservation park' in referring to the name of—
  - (a) a zone of a marine park set apart and declared under the *Marine Parks Act 1982*; or
  - (b) an area declared to be part of the Great Barrier Reef Marine Park under the *Great Barrier Reef Marine Park Act 1975* (Cwlth).

## **70AA Regulations may define extent of area**

- (1) This section applies to a regulation made under section 29(1), 41(5), 42(5), 42AB(2), 42AC(2), 42AI(2), 42AJ(2) or 46(1).
- (2) The regulation may define the extent of the area or land dedicated or declared under the regulation by reference to—
  - (a) a specified depth below the surface of land; or
  - (b) a specified height above the surface of land.

# **Part 4A Forest reserves**

## **Division 1 Preliminary**

### **70A Purpose of pt 4A and its achievement**

- (1) The purpose of this part is to assist the dedication of forest reserves as protected areas.
- (2) It is Parliament's intention that, subject to any revocation under this part or the land ceasing to be forest reserve under the *Forestry Act 1959*, section 25A, each area of land dedicated as a forest reserve will become a protected area as soon as practicable after its dedication.

### **70B Definitions for pt 4A**

In this part—

**authority** means an agreement or a lease, licence, permit or other authority.

**forest reserve** means an area of land dedicated as a forest reserve under section 70C as in force before the commencement of the *Nature Conservation and Other Legislation Amendment Act (No. 2) 2013*, section 55 if—

- (a) the dedication has not been revoked under section 70E; and
- (b) the land has not ceased to be land in a forest reserve under the *Forestry Act 1959*, section 25A.

***Land Act reserve*** means a reserve under the *Land Act 1994*.

***proposed protected area*** means an area designated as a proposed protected area under section 70K(1), the designation for which has not ended under section 70M.

***proposed protected area register*** means the register that the chief executive keeps under section 70N.

***protected area*** means—

- (a) a national park (scientific); or
- (b) a national park; or
- (c) a conservation park; or
- (d) a resources reserve.

***SEQ horse riding trail network*** see section 70BA.

***State forest*** means a State forest under the *Forestry Act 1959*.

## **70BA SEQ horse riding trail network**

- (1) The ***SEQ horse riding trail network*** is the network of horse riding trails in south-east Queensland designated as ‘finalised horse trails’ on maps held by the department for this section.
- (2) Copies of the maps may be inspected, free of charge, on the department’s website and, during office hours on business days, at the department’s head office.

*Editor’s note—*

The department’s website is <[www.nprsr.qld.gov.au](http://www.nprsr.qld.gov.au)>.

## **Division 2                      Revocation of forest reserves**

### **70E      Revocation of forest reserves**

- (1) The Governor in Council may, under a regulation, revoke the dedication of a forest reserve or a part of a forest reserve.
- (2) The regulation may be made only if the Legislative Assembly has, on a motion of which at least 28 days notice has been given, passed a resolution requesting the Governor in Council to make the revocation.
- (3) However, subsection (2) does not apply if the regulation states the purpose of the revocation is to allow the forest reserve to become a protected area.
- (4) Also, subsection (2) does not affect the power of the Governor in Council to make a regulation under the *Forestry Act 1959*, section 25 to set apart and declare as a State forest any forest reserve or part of a forest reserve.

### **70EA   Chief executive to lodge document for revocation**

- (1) If a regulation is made under section 70E for the revocation of a forest reserve, the chief executive must lodge for registration with the chief executive (lands) a document evidencing the matter the subject of the regulation.
- (2) The document must—
  - (a) be lodged as soon as practicable after the regulation is made; and
  - (b) comply with any requirements of the chief executive (lands).
- (3) If the revocation affects a part of a lot within the meaning of the *Land Act 1994*, the document lodged must be accompanied by a plan of subdivision for the change.

## **Division 3                      Management of forest reserves**

### **Subdivision 1                Management principles of forest reserves**

#### **70F      Management principles**

(1) A forest reserve is to be managed to do the following—

- (a) protect the biological diversity, cultural resources and values and conservation values of land included in the reserve, having regard to the purpose of this part;
- (b) provide for the continuation of any lawful existing use of the land;

*Examples of existing uses that may be lawful existing uses—*

- 1 apiculture, foliage harvesting, recreation and salvage timber harvesting under the *Forestry Act 1959*
  - 2 grazing under the *Forestry Act 1959* or the *Land Act 1994*
  - 3 maintenance and use of existing roads used for timber extraction and other forest management activities under the *Forestry Act 1959*
  - 4 mining under the *Mineral Resources Act 1989*
- (c) ensure all uses of the land under an authority in relation to the forest reserve made after its dedication are ecologically sustainable;
  - (d) ensure all uses of the land under an authority made after any designation of land in the forest reserve as a proposed protected area are consistent with the management principles for the class of protected area that the land is proposed to become.

(2) However, subsection (1)(b) only applies to the use of the land for commercial logging if the purpose of the logging is to remove plantation trees to restore the land's conservation values.

(3) To remove any doubt, it is declared that the dedication of the land as a forest reserve or any designation of land in the forest

reserve as a proposed protected area does not extinguish or affect native title or native title rights and interests in relation to the land.

(4) In this section—

***commercial logging*** means taking timber for commercial gain, other than—

- (a) to build, maintain or repair public infrastructure or utilities relating to the forest reserve; or
- (b) to enhance or protect a lawful use of the land, or to ensure the use may be carried out safely; or
- (c) to allow native vegetation on the land to be regenerated under a written approval given by the chief executive; or
- (d) for use as firewood; or
- (e) incidentally to a lawful use of the land that does not involve taking timber.

*Example for paragraph (e)—*

If collecting seeds from trees on the land is lawful, collecting the seeds may involve taking branches from trees that have the seeds on them.

***ecologically sustainable***, for use of the land, means use within the capacity of the land to sustain natural processes while—

- (a) maintaining the life support systems of nature; and
- (b) ensuring the benefit of the use to present generations does not diminish the potential to meet the needs and aspirations of future generations.

***make***, for an authority, includes renew the authority.

## Subdivision 2      Management

### **70G      State forest or timber reserve dedicated as a forest reserve**

- (1) This section applies if land in a State forest or timber reserve is dedicated as a forest reserve.
- (2) The land ceases to be land in a State forest or timber reserve.
- (3) However—
  - (a) the *Forestry Act 1959* continues to apply, with necessary changes, in relation to the land and its management as if the land were, and had continued to be, a State forest or timber reserve; but
  - (b) the *Forestry Act 1959*, section 33 does not apply to the management of the land.
- (4) This section applies despite the *Forestry Act 1959*.

*Note—*

See, however, the *Forestry Act 1959*, section 25A.

### **70H      Land Act reserve dedicated as a forest reserve**

- (1) This section applies if land in a Land Act reserve is dedicated as a forest reserve.
- (2) The land ceases to be land in a Land Act reserve.
- (3) However, the *Land Act 1994* continues to apply, with necessary changes, in relation to the land and its management as if the land were, and had continued to be, a Land Act reserve.
- (4) Also, if a person was, immediately before the dedication, a trustee of the land under the *Land Act 1994*, the person continues to be a trustee of the land under that Act.
- (5) This section applies despite the *Land Act 1994*.

## **70I Management principles prevail**

- (1) A forest reserve must be managed under the management principles under section 70F.
- (2) If there is an inconsistency between the management principles and a provision of the *Forestry Act 1959* or the *Land Act 1994*, the management principles prevail to the extent of the inconsistency.
- (3) Despite sections 70G and 70H, an action must not be done in relation to the management of a forest reserve if it is inconsistent with the management principles.
- (4) In this section—  
*action* includes any of the following—
  - (a) making, amending or renewing an authority in relation to a forest reserve;
  - (b) converting an authority to another form of authority;
  - (c) changing the purpose of an authority;
  - (d) offering or agreeing to carry out an action under paragraphs (a) to (c).

## **Division 4 Progression to protected area**

### **Subdivision 1 Review of forest reserves**

#### **70J Review**

- (2) The review must start as soon as practicable after the dedication of the forest reserve.

---

## **70JA Review of impact of horse riding trails**

- (1) The chief executive must review the areas within forest reserves that comprise horse riding trails in the SEQ horse riding trail network.
- (2) In conducting the review, the chief executive must—
  - (a) have assessments conducted under section 70JB; and
  - (b) consider how to address any significant adverse impacts identified by the assessments including, if appropriate, removing a trail from the SEQ horse riding trail network.
- (3) The review must start as soon as practicable after the commencement of this section and must be completed for all areas by 31 December 2025.

## **70JB Assessment by independent scientific advisory committee**

- (1) This section applies to an assessment required under section 70JA(2)(a).
- (2) The assessment must be of the impact, on horse riding trails and adjacent areas, of horse riding use.
- (3) The assessment must be conducted by an advisory committee, established under section 132, comprising members who—
  - (a) have expertise in relevant disciplines for the assessment; and

*Examples of disciplines that may be relevant—*

- aquatic science, conservation biology, conservation management, environmental impact assessment, social science, soil science, statistical analysis, sustainable recreation, weed management
- (b) are independent of government or non-government entities that might reasonably be perceived to be particularly interested in decisions affecting horse riding in forest reserves.

- (4) The assessment must be based on monitoring and evaluation conducted over a period long enough to assess the likely impacts of horse riding use.
- (5) The assessment must take account of the cumulative impacts of horse riding and other activities conducted in the areas to which the assessment relates.
- (6) To the extent the assessment relates to a particular horse riding trail, the assessment need not be based on measurement or monitoring of the trail, or of every part of the trail, but may be based on appropriate information obtained from measuring or monitoring, and evaluating, other trails or parts of the trail with relevant characteristics.
- (7) In this section—  
*adjacent areas*, in relation to horse riding trails, means areas adjacent to the trails whether or not the areas are part of a forest reserve.

## Subdivision 2      Proposed protected areas

### 70K      Designation

- (1) The chief executive may, by an entry in the proposed protected area register, designate the whole or part of a forest reserve as a proposed protected area if—
  - (a) under section 70J the chief executive has reviewed the reserve; and
  - (b) for a proposed protected area that includes a horse riding trail in the SEQ horse riding trail network, the chief executive has completed the review under section 70JA to the extent the review relates to the proposed protected area; and
  - (c) subsections (2) to (5) have been complied with.
- (2) The chief executive must publish a notice of a proposed designation in a newspaper likely to be read by people particularly affected by it.

- (3) The notice must state the following—

Protected wildlife is to be managed to—

- (a) conserve the wildlife and its values and, in particular to—
  - (i) ensure the survival and natural development of the wildlife in the wild; and
  - (ii) conserve the biological diversity of the wildlife to the greatest possible extent; and
  - (iii) identify, and reduce or remove, the effects of threatening processes relating to the wildlife; and
  - (iv) identify the wildlife's critical habitat and conserve it to the greatest possible extent; and
- (b) ensure that any use of the wildlife—
  - (i) for scientific study and monitoring; or

- (ii) for educational, recreational, commercial and authorised purposes; or
  - (iii) by Aboriginal people under Aboriginal tradition or Torres Strait Islanders under Island custom;
- is ecologically sustainable.

#### **74 Management principles of international wildlife**

International wildlife is to be managed in accordance with the wildlife's international conservation significance and, in particular—

- (a) to ensure the protection of protected wildlife from any threatening process that may be posed by the wildlife; and

- (3) In this section—

***vulnerable***, in relation to wildlife, means the wildlife falls within a description mentioned in section 78(1).

---

**80 Native wildlife may be prescribed as least concern wildlife**

- (1) A regulation may prescribe native wildlife as least concern wildlife if the wildlife is common or abundant and is likely to survive in the wild.

  - (a) the wildlife is the subject of a threatening process; or
  - (b) the population size or distribution of the wildlife has declined; or
  - (c) there is insufficient information about the wildlife to conclude whether the wildlife is common or abundant or likely to survive in the wild.

**81 Wildlife may be prescribed as international wildlife**

If the Governor in Council is of the opinion that wildlife included in appendix I or II of CITES is not indigenous to Australia, the wildlife may be prescribed as international wildlife.

**82 Wildlife may be prescribed as prohibited wildlife**

If the Governor in Council is of the opinion that wildlife is—

- (a) an unnatural hybrid or not indigenous to Australia; and

In response, B replied that B did not have that evidence and that B bought the wildlife from someone else whom B did not know.

- 2 A holds a licence under this Act to keep particular protected wildlife. A buys protected wildlife of that type from B. Under this Act, to keep or deal with the wildlife, B must hold a particular type of licence. A regulation requires that B must, before the sale is completed, fill in a movement advice in the approved form for the movement of the wildlife because of the sale. The approved form requires a written acknowledgement by A as the person to whom the wildlife is being moved. B has not shown to A that B holds a licence to keep and deal with the wildlife. A did not give the acknowledgement.
- (2) If a person is charged with an offence against subsection (1), it is a defence to the charge if the person satisfies the court that the person had no reasonable grounds for suspecting the wildlife was unlawfully taken.
- (3) In this section—  
*unlawfully taken* means taken in contravention of section 88(2), 89 or 97 or of a law of another State.

- (a) the wildlife is dead and, if the wildlife is international wildlife, an approved tag is, under a regulation, attached to the animal or the part of the animal that is being kept or used; or
- (b) the keeping or use is the keeping or use of milk obtained from prohibited wildlife; or
- (c) the keeping or use is otherwise authorised under this Act or the *Exhibited Animals Act 2015*.
