  - b) Conduct Council procurement within a sound governance and probity environment; and
  - c) Support the cost-effective and timely delivery of Council's capital works, operational and service delivery programs.

#### PRINCIPLES

- 5) The *Local Government Act 2009* sets out "sound contracting principles" that Council is to have regard to when entering into a contract being:
  - a) Value for money;
  - b) Open and effective competition;
  - c) The development of competitive local business and industry;
  - d) Environmental protection; and
  - e) Ethical behaviour and fair dealing.

#### POLICY STATEMENT

- 6) Matters that are to be considered in any Council procurement are outlined below.

### ***Value for Money***

- 7) Council aims to obtain Value for Money in its procurement in that the goods, equipment or services being procured represent the best return and performance for the money spent from a “total costs of ownership” or “whole-of-life costs” perspective. The result of using such an evaluation methodology to assess Value for Money may not necessarily favour the lowest price. All impacts of entering into a contract at a particular price must be considered.

### ***Open and Effective Competition***

- 8) Council promotes Open and Effective Competition by:
- a) Procurement procedures and processes being available to Council suppliers and the public (i.e. rate payers and the local community);
  - b) Suppliers having real opportunity to do business with Council;
  - c) Invitations to suppliers being arranged so that there is competition among suppliers to provide Value for Money offerings; and
  - d) Fair and equitable assessment of all offers to supply.

### ***Development of Competitive Local Business and Industry***

- 9) Council encourages development of competitive local business and industry by:
- a) Actively seeking out potential local supplies and suppliers and where applicable, encourage local business to provide a quote;
  - b) Encouraging principal contractors to give local suppliers every opportunity, to participate in major projects as partners or subcontractors;
  - c) Giving preference to locally-sourced goods and services, where price, performance, quality, suitability and other evaluation criteria are comparable;
  - d) Ensuring that payments are prompt and in accordance with the agreed terms of contract; and
  - e) Giving consideration to the advantages of buying locally-sourced goods and services, and to dealing with local suppliers, including:
    - i) Spare parts and servicing support are more readily available;
    - ii) Compliance with warranty provisions is more reliable;
    - iii) Supply lines are shorter; and
    - iv) Communications for contract administration are more convenient.

### ***Local Preference***

- 10) A local business preferential weighting to the “Price” evaluation criteria of a procurement assessment is to be applied at the following rates:
- 10% for purchases to the value of \$50,000 (excluding GST)
  - 5% for purchases over the value of \$50,000 (excluding GST).

### ***Environmental Protection***

- 11) Council promotes environmental protection through its procurement activities. In undertaking any procurement activities, the Council will:
- a) Prefer the purchase of environmentally friendly goods and services that satisfy value for money criteria when the environmental cost is included;
  - b) Foster the development of products and processes of low environmental and climatic impact;
  - c) Provide an example to business, industry and the community by promoting the use of climatically and environmentally friendly goods and services; and
  - d) Encourage environmentally responsible activities.

### **Ethical Behaviour and Fair Dealing**

- 12) Council supports Ethical Behaviour and Fair Dealing by:
- a) Developing systems and procedures that ensure a consistent, ethical and fair approach to procurement and allows for the transparent disclosure of conflicts of interest; and
