Attachment 1 – Conditions to be imposed by Concurrence Agency

No.	Conditions
General	
1.	Unless otherwise stated in a particular condition, all conditions must be completed prior to the completion of building works, or issue of a final certificate, whichever is the sooner, unless otherwise agreed to in writing by the Concurrence Agency.
Design and Siting	
2.	The approved shipping container shed must be sited a minimum 4 metres from the south-western property boundary, with all setbacks measured from the outermost projection of the structure.
3.	The overall height of the approved shipping container shed must not exceed 8.5 metres measured from natural ground level. Any earthworks required for the development must be undertaken in such a way as to ensure that the height of the building complies with this condition.
4.	Utilise colours in the development that are sympathetic to the surrounding environment and avoid excessive brightness, contrast, colour intensity, and reflectivity. In this regard, materials/colours on the roof and wall of the structures must not reflect glare into the habitable rooms of any dwelling on surrounding allotments.
5.	Replace or make good all exterior wall cladding material so as to be free of any visible or performance related defects.
6.	Complete all external wall finishes so as to provide a surface that is free of flaking paint, stains or rust. Wall finishes are to be renewed or replaced so as to match the colour and finish of surrounding wall areas of the building or structure.
7.	Replace or make good all roof cladding materials so as to be free of any visible or performance related defects including rust, flaking paint or broken tiles.
Use	
9.	The approved shipping container shed is to be used for private/domestic purposes only. The approved structure must not be used as a separate domicile/dwelling or used for any industrial/business use unless valid development approvals are granted for such uses. To this end, the use of any of the approved building/s associated with this approval must be ancillary and incidental to the predominant use of the site for a Dwelling Unit
10.	The approved shipping container shed must not be used for habitable purposes.

Attachment 1B – Advice Notes

A.	This Concurrence Agency Response does not represent a development approval for Building Works under the <i>Building Act 1975</i> .
B.	All building works the subject of this notice can only proceed once a development permit for building works is issued by a Building Certifier.
C.	Please note this amenity and aesthetics assessment pertains to the approval of a class 10 building only (defined as Domestic Carport, Shed and Garage (10a)). It is recommended that clarification from a Building Certifier be sought to ensure that an appropriate building classification is applied to align with the building size, purpose, use and intent of operations within the building.
