Application No:	153/20
Proposed development:	Development Permit for Building Works

**Aspects of development and type of approval being sought**

Nature of Development	Approval Type	Brief Description of Proposal
Building Work	Development Permit	To reclassify 10a shed to 1a dwelling

### Attachment 1 – Conditions to be imposed by Concurrence Agency

No.	Conditions
<b>General</b>	
1.	Unless otherwise stated in a particular condition, all conditions must be completed prior to the completion of building works, or issue of a final certificate, whichever is the sooner, unless otherwise agreed to in writing by the Concurrence Agency.
<b>Design and Siting</b>	
2.	Utilise colours in the development that are sympathetic to the surrounding environment and avoid excessive brightness, contrast, colour intensity, and reflectivity. In this regard, materials/colours on the roof and wall of the structures must not reflect glare into the habitable rooms of any dwelling on surrounding allotments.
<b>Use</b>	
3.	The approved dwelling is to be used for private/domestic purposes only. The approved structure must not be used for any industrial/business use unless valid development approvals are granted for such uses. To this end, the use of any of the approved building/s associated with this approval must be ancillary and incidental to the predominant use of the site for a Dwelling Unit

### Attachment 1B – Advice Notes

A.	This Concurrence Agency Response does not represent a development approval for Building Works under the <i>Building Act 1975</i> .
B.	All building works the subject of this notice can only proceed once a development permit for building works is issued by a Building Certifier.
C.	Please note this amenity and aesthetics assessment pertains to the approval of a class 1a building only. It is recommended that clarification from a Building Certifier be sought to ensure that an appropriate building classification is applied to align with the building size, purpose, use and intent of operations within the building.

## **Attachment 2 – Reasons for decision to impose conditions**

The reason for this decision are:

- To ensure the development is carried out generally in accordance with the plans of development submitted with the application.
- The Amenity and Aesthetics policy adopted by North Burnett Regional Council on the 4 November 2016 states that matters for consideration are to be the architectural style, building form, construction materials and physical condition of the proposed dwelling complements existing houses in the locality and surrounding pattern of development.

- (4) The **service period** is—
  - (a) if a submitter or advice agency started the appeal in the P&E Court—2 business days after the appeal is started; or
  - (b) otherwise—10 business days after the appeal is started.
- (5) A notice of appeal given to a person who may elect to be a co-respondent must state the effect of subsection (6).
- (6) A person elects to be a co-respondent by filing a notice of election, in the approved form, within 10 business days after the notice of appeal is given to the person.
- (7) Despite any other Act or rules of court to the contrary, a copy of a notice of appeal may be given to the chief executive by emailing the copy to the chief executive at the email address stated on the department's website for this purpose.
