Attachment 1 – Conditions to be imposed by Concurrence Agency

No.	Conditions
General	
1.	Unless otherwise stated in a particular condition, all conditions must be completed prior to the completion of building works, or issue of a final certificate, whichever is the sooner, unless otherwise agreed to in writing by the Concurrence Agency.
2.	All conditions of the Amenity and Aesthetics approval are to be completed prior to issue of Form 21.
Design and Siting	
3.	The approved shipping container generally in accordance with the endorsed plan, with all setbacks measured from the outermost projection of the structure.
4.	The floor area of the approved shipping container must not exceed 15m ²
5.	The shipping container is to be painted. Utilise colours that are sympathetic to the surrounding environment and avoid excessive brightness, contrast, colour intensity, and reflectivity. In this regard, materials/colours on the roof and wall of the structures must not reflect glare into the habitable rooms of any dwelling on surrounding allotments.
6.	Complete all external wall finishes so as to provide a surface that is free of flaking paint, stains or rust. Replace or make good all exterior wall cladding material so as to be free of any visible or performance related defects.
Use	
7.	The approved shipping container is to be used for private/domestic purposes only. The approved structure must not be used as a separate domicile/dwelling or used for any industrial/business use unless valid development approvals are granted for such uses. To this end, the use of any of the approved building/s associated with this approval must be ancillary and incidental to the predominant use of the site for a Dwelling Unit
8.	The approved shipping container must not be used for habitable purposes.
Landscaping	
13.	Provide landscaping along the nearest side boundary to the approved structure to a standard adequate to screen the building from adjoining premises.
14.	Maintain the new landscaping on the site to the satisfaction of the Concurrence Agency

Attachment 1B – Advice Notes

A.	This Concurrence Agency Response does not represent a development approval for Building Works under the <i>Building Act 1975</i> .
B.	All building works the subject of this notice can only proceed once a development permit for building works is issued by a Building Certifier.
C.	Please note this amenity and aesthetics assessment pertains to the approval of a class 10 building only (defined as Domestic Carport, Shed and Garage (10a)). It is recommended that clarification from a Building Certifier be sought to ensure that an appropriate building classification is applied to align with the building size, purpose, use and intent of operations within the building.

Attachment 2 – Reasons for decision to impose conditions

The reason for this decision are:

- To ensure the development is carried out generally in accordance with the plans of development submitted with the application.
- To ensure that the development is carried out in accordance with the performance criteria as stated in the Queensland Development Code MP1.2.
- The Amenity and Aesthetics policy adopted by North Burnett Regional Council on the 4 November 2016 states that matters for consideration are to be the architectural style, building form, construction materials and physical condition of the proposed dwelling complements existing houses in the locality and surrounding pattern of development.
- The shipping container does not complement the existing locality and surrounding pattern of development. Therefore conditioning the painting of the structure and landscaping along the fence-line nearest the structure enables the shipping container to blend into the surrounding pattern of development
