

Application for Water Restrictions Exemption

Water

Folder 119347 Workflow Water Doc ID _____ Box No _____

Use this form to apply for an exemption to water restrictions.

EXEMPTION INFORMATION

In certain circumstances, a water business may consider granting an exemption to water restrictions upon an application being made by a customer.

The overriding objective is to maximize water conservation during times of restriction, while at the same time, endeavouring to ensure that no customer segment or individual is disproportionately impacted by water restrictions.

Applications for an exemption must be made on this form. Extra information may be attached if required.

All approved exemptions may be logged on a register, where the public may seek clarification over the status of an exemption. The only information which will be made public is:

- The site address for which the exemption is granted.
- Details of the terms of exemption.
- Date approved and sunset date, or conditions.

Approval of exemption terms is conditional to the applicant agreeing to:

- the exemption being granted to a specific site address, or a particular person or organization, or in special circumstances, both a particular person or organisations AND a particular site;
- signage being provided by the recipient and being prominently displayed at the site;
- co-operate with any audit of site compliance for granted exemptions, to ensure alternative arrangements are being adhered to;
- re-apply should the restriction levels change.
