

Attachment 1 – Conditions to be imposed by Concurrence Agency

No.	Conditions
General	
1.	Unless otherwise stated in a particular condition, all conditions must be completed prior to the completion of building works, or issue of a final certificate, whichever is the sooner, unless otherwise agreed to in writing by the Concurrence Agency.
Design and Siting	
2.	The approved shed extension must be sited a minimum 2 metres from the north-western property boundary and 9.1m from Walker Street, with all setbacks measured from the outermost projection of the structure.
3.	The floor area of the approved shed must not exceed 110 m ²
4.	The height of the approved shed extension must not exceed 4m above natural ground. Any earthworks required for the development must be undertaken in such a way as to ensure that the height of the building complies with this condition.
5.	Utilise colours in the development that are sympathetic to the surrounding environment and avoid excessive brightness, contrast, colour intensity, and reflectivity. In this regard, materials/colours on the roof and wall of the structures must not reflect glare into the habitable rooms of any dwelling on surrounding allotments.
Use	
6.	The approved shed and extension is to be used for private/domestic purposes only. The approved structure must not be used as a separate domicile/dwelling or used for any industrial/business use unless valid development approvals are granted for such uses. To this end, the use of any of the approved building/s associated with this approval must be ancillary and incidental to the predominant use of the site for a Dwelling Unit
7.	The approved shed and extension must not be used for habitable purposes.

Attachment 1B – Advice Notes

A.	This Concurrence Agency Response does not represent a development approval for Building Works under the <i>Building Act 1975</i> .
B.	All building works the subject of this notice can only proceed once a development permit for building works is issued by a Building Certifier.
C.	Please note this amenity and aesthetics assessment pertains to the approval of a class 10 building only (defined as Domestic Carport, Shed and Garage (10a)). It is recommended that clarification from a Building Certifier be sought to ensure that an appropriate building classification is applied to align with the building size, purpose, use and intent of operations within the building.

Attachment 4 – Planning Act 2016 Extract Appeal Rights

Intentionally left blank
